

As the staff of Jacob Beam we (the Character Education Committee) would appreciate your input in the creation of our schools value statement. It is our value and mission statements that will provide a guiding philosophy for us to move forward in a single direction in what we do here. In examining what it is we value here please give us one statement/example of your own for each of the domains below. We strongly value and need each of your opinions in this. Thank you very much for your help and cooperation.
